The Safeway Store Opened Wednesday In Hopkins Building

The Safeway Store opened here Wednesday morning in that part of the Clarence Hopkins building formerly occupied by the Elite Cafe and Ireson's Shoppe.

This store has a 50 foot front and is very modern and complete. Carpenters and painters have been working on it for the past three weeks, remodeling the store and installing new fixtures.

L. G. Winter, district manager, has been here several days assisting with the plans for the opening.

A complete line of groceries will be kept in stock, and a meat market has been installed. They invite your inspection of their new store.

Personel of the store: O. M. Mitchell, manager; Dewey Cornelius, market manager; J. J. Cummings, Frazier Culwell, Ross Robertson, Ed. Mitchell and J. E. Phillips, clerks. Those connected with the store from out of town expect to move here to make their home within the next few days.
